

Khobar Towers Bombing Survivors Association

Newsletter

The month of June saw our association become an official 501(c)7 non-profit organization, the creation of our web site (www.ktbsa.com) and the start of our membership drive.

Memorial Services

Eglin AFB and Patrick AFB both held memorial services on the 25th of June honoring those lost in the Khobar Towers Bombing and acknowledging it's impact on the families and survivors as well as it's impact on the Air Force. See the Articles and Pictures pages on our web site. We have also had some great additions to our Stories page.

Membership

Membership is important because the more members we have the more willing the media and other organizations will be to support our goals. Keeping the Khobar Towers Bombing and the lessons learned before the public is only one of our goals. Our other goals include supporting the annual memorials and the sharing of stories and support for survivors and their families. If you haven't, [Please Join Today.](#)
