

Khobar Towers Bombing Survivors Association

March 2014 Newsletter

From the Presidents Desk:

Well, here comes another summer. Do I need to discuss the 101 critical days of Summer Safety? Or are we all summer safety aware?

The 18th memorial will be held at Egland AFB

Egland AFB as in the past will be holding a Memorial Service on the 25th of June. Their continued support of the Families and Survivors is greatly appreciated. More information will follow, as the date grows closer.

The 20th Memorial is in the planning stages.

Many of the Survivors asked that it be held at Arlington National Cemetery in Washington DC. The No Greater Love organization held memorials on the 5th, 10th and 15th anniversaries. They will be a critical part of the 20th memorial. If you are interested in helping, we are forming a committee to work with the No Greater Love organization in preparation for this event.

Did you know...

I have recently found there are a large number of Khobar Towers Bombing Survivors and Families that didn't know the 4404 (P) Wing received the Air Force Outstanding Unit with Valor. This was authorized under GA005.

There was also an additional Air Force Outstanding Unit award, which you may have qualified for.
